

Rex Morgan

St. Louis, October 9-12, 2014 - Greetings from Australia

I WOULD LIKE TO SEND MY SINCERE GREETINGS FROM AUSTRALIA TO ALL AT THE SYMPOSIUM. UNFORTUNATELY MY AGE AND STATE OF HEALTH MAKES IT DIFFICULT FOR ME TO BE WITH YOU. I RECALL MANY OF YOU FROM MY ACTIVE PERIOD WITH SHROUD STUDIES SINCE 1978 WHEN I WAS HEAVILY INVOLVED IN MANY OF THE CONFERENCES WORLD WIDE; DID RESEARCH ON THE CATACOMB PORTRAITS; MUCH WORK ON THE TEMPLECOMBE PANEL ; WORKED WITH DAMIAN IN JERUSALEM; PRODUCED MORE THAN 100 ISSUES OF SHROUD NEWS; WROTE FOUR BOOKS ON THE SHROUD AND BROADCAST AND LECTURED HUNDREDS OF TIMES. I HOPE THE GOOD LORD WILL ENABLE ME TO BE AT TURIN IN 2015. REX MORGAN

St. Louis, October 9-12, 2014 - Greetings from Tanzania

Dear Sindonologists,

I wish you a wonderful and very successful Shroud Conference in St. Louis, October 2014. Your scientific research into the hidden things surrounding the Shroud of Turin is a real search for truth. I believe that the impact of your work is destined to go beyond quenching the intellectual curiosity of many people from all corners of the world who want to know more and more about the mystery of this artifact. But I am also convinced that your work can inspire someone to try a little bit more than otherwise to do something good for a brother or sister next door. When your time permits, please visit our website at www.kwausoschool.org; The website is about a school (KWAUSO Secondary School) which could boast the Shroud as its original point of inspiration.

Greetings!

Fr. Stanislaus Mutajwaha PhD, Bukoba. Tanzania
