

PROGRAMME OF THE SYMPOSIUM

Agenda

The programme will soon be established and sent to persons who have registered to attend the symposium. The three main objectives of the conference concern conservation of the Shroud, the response to the epistemological contradiction and the objectives that research must determine for the centenary of 1998. The presentation will be arranged in the following sections:

- A - Conservation of the Shroud
- B - Identification of the origin of the Shroud
 - An artist?
 - A forger?
 - A corpse?
 - The Body of Jesus of Nazareth?
 - The Shroud of the last chapter of St John?
- C - The mechanism of the transfer of the image/imprint;
- D - The epistemology of the Shroud.

All disciplines that can contribute to the elucidation of these questions, especially historical and iconographical research covering the sixth to the fifteenth centuries, have been invited.
