

We only recently learned of the passing in February 2024 of a member of the 1978 STURP team John Dee German, who worked for the U.S. Air Force Weapons Laboratories, who handled technical support for all experiments. German was part of the car pool at the Air Force Academy consisting of Ken Stevenson, John Jackson, and Eric Jumper that was a catalyst for the formation of the STURP team. German was an agnostic but eventually converted to Christianity through his study of the Shroud.
