

The 2010 Frascati conference organized by Paolo Di Lazzaro, had many important and interesting presentations by such authors as M. Antonnaci, P. Di Lazzaro, G. Fanti, D. Fulbright, G. Lavoie, H. Pfeiffer, A. Piana, D. Scavone, A. Silverman and R. Van Haelst.

The website for the conference, which included access to the Proceedings, has been removed. However, Paolo sent the files to CISS (Centro Internazionale di Studi sulla Sindone di Torino, [on whose site the Proceedings now reside](#)).

It would have been a great loss to not have online access to these valuable Proceedings. Fortunately, they will now still be available.
