

Index to The Untold Story of the Holy Shroud by Carlos Evaristo

Compiled by Paul C. Maloney

Words in brackets may not actually occur in the text of this book. I present them here because a term may be used by Sindonologists as a synonym for the actual treatment in this work by Dr. Carlos Evaristo. Quote marks [“ ”] around a title indicates that the author of the book has either used the word “so-called” or “supposed” to describe it, or has actually used quote marks in reference to it.

The following compilation contains a full registry of all the illustrations in Carlos Evaristo’s book, plus selected dates, names of persons, subject material, and geographic places. The index is not an exhaustive compilation of the latter material.
