

# The Shroud on the Internet

January 21, 2022

[Radiocarbon Dating and Research with the Shroud of Turin](#) – GRP Blog – Guy Powell – January 10, 2022 – Guy asks, “How does radiocarbon dating effect Shroud research?” and discusses in detail in this blog posting.

[Taizé, la Sindone parla ai giovani \(Taizé, the Shroud speaks to young people\)](#) – [www.sindone.org](http://www.sindone.org) – December 30, 2021 – Official Website in Turin (currently only available in Italian).

[Bishop Nosiglia: the meaning of life and our journey](#) – [www.sindone.org](http://www.sindone.org) – December 30, 2021 – “The full English translation of the text of the Meditation in front of the Shroud “We have seen Love” for the meeting of the young people of Taizé held by the Custodian Msgr. Nosiglia in the Cathedral of Turin on December 30, 2021.”

[Pope, patriarch offer prayers as young Europeans hold Taizé prayer online](#) by Cindy Wooden, Catholic News Service – National Catholic Reporter – December 30, 2021 – Here is an excerpt from the introduction: “Although young adults from across Europe will not pray in the New Year together in Turin, they were gathering online to do so and to focus on ways to increase unity in a fractured world. The Turin meeting, already postponed from 2020, has been rescheduled for July, but Archbishop Cesare Nosiglia of Turin decided to go forward with a special exhibition of the Shroud of Turin, the 14-foot-by-4-foot linen cloth many people believe is Jesus' burial shroud...”

[Medical-Forensic Explanation of the Shroud of Turin](#) by Juan Manuel Miñarro López – Renewal Journal Blog – December 22, 2021 – Article includes superb (and in some cases graphic) illustrations. Here is an excerpt from the introduction: “The following text, illustrated with drawings and photographs, represents the conclusion of six years of personal work and research on the Shroud of Turin (Italy) and the Holy Shroud of Oviedo (Spain), as a member of the EDICES (International Research Team of the Centro Español de Sindonología), but it also represents the most complete compilation of the most complete legal medical research that has ever been carried out on an object closely related to the Passion of Christ...”

[ProHawk Vision Shroud of Turin Ventral Image Research Project Results](#) by Robert Brown – The Free Press – December 20, 2021 – Press release. Here is an excerpt from the article: “Did ProHawk Technology Groups patented computer vision algorithms in any way contribute to the image analysis details from a sanctioned Shroud of Turin picture? ProHawk Technology Group, Inc., a leading computer vision restoration and enhancement technology and solutions provider, today announced it has completed a charity computer vision research project with the Shroud of Turin Education and Research Association, Inc. (STERA, Inc.), and Tactical Intelligence International...”

[Best physical evidence of Roman crucifixion found in Cambridgeshire](#) by Jamie Grierson – The Guardian – December 8, 2021 – Here is an excerpt from the article: “Near 1,900-year-old skeleton discovered with nail through heel bone during excavation in Fenstanton... Found at the site of a future housing development in Cambridgeshire, the near 1,900-year-old skeleton at first did not seem particularly remarkable... But once his remains were removed to a laboratory in Bedford, a grisly discovery was made – a nail through the heel bone that experts now say is the best physical evidence of a crucifixion in the Roman world...”
