

NOEL CURRER-BRIGGS - A SUPPLEMENT TO HIS LATEST BOOK

As a result of new evidence since the publication of his *The Shroud and the Grail*, Noel Currer-Briggs has written a form of supplement. Because of the length of this, and the difficulty of condensing such detailed information, this is published with this Newsletter as the Society's first monograph. For economic reasons this has been reproduced in a small print size, but if members can bear with this, then the opportunity is presented for further longer contributions of this kind.
